

Book Review Hunger Games

We stand, our backs pressed together, our empty hands locked tight.

"The count of three," No Peeta, don't do it!

"One." Maybe I'm wrong. No, the story can't end like this, it just can't!

"Two" Maybe they don't care if we both die. They've got to care! It would ruin the whole story!

"Three!" It's too late to change my mind. I lift my hand to my mouth, taking one last look at the world. No, no, no, Katniss you can't!. Think about everything you've been through! Everything I've been through to get to this point in the story! Don't let it end like this! Please!

The seam, the capital, the arena. Death, survival, victory. Trust, love, betrayal. The Hunger Games is action packed! Katniss Everdeen constantly battling for her cause. Justice! The reaping, the good byes', the combat. Imagine panicking that your life will be cut short and not knowing if you'll go home. There is a twist at every turn! And your choices in the arena? Kill or be killed!

Katniss Everdeen. An average 16 year old girl from the seam. Never intending on going any further than the woods outside the district. But life had other plans. No one wants to be unwilling forced to battle to their deaths. Katniss was one of the unlucky ones. You've just gotta hope that the odds are in your favour. Going into the arena though, Katniss knew one thing. She wasn't going to stop until the battle was over.

The Hunger Games is an amazing book and I would highly recommend it to people 12+. You can't stop reading because you have to make sure that Katniss hasn't met her untimely death! You truly grow attached to the characters and when you finish the book, you are left wanting more! It is a must read! It teaches you that no matter who you are, where you are from and what your background is, you can fight for what you believe is right! It shows you how even if you feel small and insignificant, you can make a change! All you need is a little faith.
