Strike For Climate Change

Please! Just PLEASE Stop! You're taking this too far it's not just a joke anymore! ^{the} This is the biggest crisis humanity has ever faced, this is ^{not} something you can like on facebook! says Greta Thunberg. Co2 emissions traps the heat in the atmosphere and effects the North Pole, South Africa, Urban cities and the deep Jungles. If you betray Earth you betray us if you save Earth you save us. Please Strike NOW!

From the Artic oceans where seals whimper on melted ice, to the once beautiful Great Barrier Reef used to be called home by tens and thousands of fish, Then our loved ones, our next generation I'm sorry. I'm sorry you can't see thick, lush Amazon Rain Forest full of wild or the colourful aquarium or zoos where tropical creatures live, I'm sorry.

Name: _____

"We will be the reason why we won't exist" David Attenborough once said. Since we pollute our waters and chop our tree people have to flee their home and live as refugees. Families starve and die and get killed in other way than one such as Cardiovascular, Malnutrition and respiratory diseases just to name a few.

Harsher droughts, Extreme seasons and tidal rise. What could be worse that? "We are running the most dangerous experiment in history to see how much carbon dioxide the atmosphere can handle before the environment is a catastrophe" Elon Musk says.

Australia tropical bay, unique animals and welcoming people. This is our land in present day but what if we don't stop Climate Change. Well the tides will rise and the bays will become a part

Name: _____

of the ocean and the animals
will half of the population will
be extinct. Australia maybe a dead
desert with nothing roaming it's land.
We Will Strike! We Will Strike Together!
We Will Strike Until We WIN The War
On Climate Change!
